KURUMA SHRIMP

(MARSUPENAEUS JAPONICUS)

Premium Prawns from South Kyushu, Japan

~ Kagono Nemuri ~

~ 2L : 10 prawns ~

Conditions in the land-based aquaculture ponds are extremely similar to the nature environment. We are proud of the taste of our Kuruma Shrimp that are grown with the premium diet (main ingredient : squid meal) which never be able to be produced naturally. Also any chemical treatments are not used.

These prawns are produced by the leading company of Japanese Kuruma Shrimp aquaculture production which is known as the largest producer having the top market share in Japan.
